INFORMATION DISCLOSURE STATEMENT

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

Sir:

The applicant is filing this Information Disclosure Statement to make of record US and foreign patents and applications, and non-patent references. The references it is desired to make of record are listed on the accompanying Forms.

With one exception, all of the references filed herewith are in the English language, or an English Abstract is provided, so that, pursuant to 37 CFR 1.98(a)(3), no statement of the relevance of these references is required. The exception is DOS 25 73 763, which was cited by way of background art in the International Search Report WO 2003/107315 A3; a copy of this International Search Report is enclosed. As shown in the drawing, this DOS describes an active matrix liquid crystal display in which each pixel is provided with an array of three capacitors (3, 4, 5) so that after information has been written to the display during a first period, the field on the pixel is maintained during at least one subsequent period (see the characterizing clause of claim 1).

The Examiner is respectfully asked to note that, for the convenience of both the Examiner and the undersigned attorney, certain prior art documents mentioned in the application have been replaced by their US equivalents or other convenient equivalents, as follows:
